

## A black and white photograph of a large, faceted crystal sphere, resembling a geode or a large diamond, positioned centrally. Surrounding the sphere are various discarded objects, illustrating the concept of waste. These include a broken egg, a tin of NDS (likely a cleaning product), a broken glass, a piece of crumpled paper, a small metal object, a piece of wood, and a small metal container. The objects are arranged in a circular pattern around the sphere, creating a visual metaphor for the cycle of waste and recycling. In the bottom left corner, there is a small logo that reads "H-50" and "HDS".
